## Section 4: First Aid Measures

<b>General Overview:</b>	Contact or inhalation of dust may cause irritation to eyes, skin and respiratory organs or slight allergic reaction.
<b>Inhalation:</b>	If inhaled large amount and symptoms occur, remove victim to fresh air and keep at rest. Get medical advice as appropriate.
<b>Skin:</b>	Rinse with plenty of water and soap. If allergic reactions occur, get medical advice as appropriate.
<b>Eyes:</b>	Immediately rinse cautiously with clean water. If symptoms occur, immediately get medical advice/attention.
<b>Ingestion:</b>	Rinse mouth. If symptoms occur, immediately get medical advice/attention. See section 11 for more detailed information on health effects & symptoms.

## SECTION 5: Fire Fighting Measures

<b>Flammability of the product:</b>	No data available
<b>Extinguishing Media:</b>	Use water mist, dry chemical powder, carbon dioxide or dry sand. Applying direct water may be dangerous because fire may expand to surroundings.
<b>Hazardous thermal (de)composition products:</b>	In case of fire, toxic decomposition products may be generated.
<b>Special Fire Fighting Procedures:</b>	Take action from windward. Use respiratory protective equipment. Move container to a safe area if it can be done without risk. If it is not possible to move, cool the container and surrounding area with water. Keep out except responsible personnel. Cut off any ignition sources and extinguish with an appropriate agent. Cool the surrounding tank and the buildings with direct water jet to avoid risk of fire spreading. In first-aid firefighting, use water mist and fire foam. In case of a large fire, quickly extinguish using alcohol-resistant foam.
<b>Flash Point:</b>	No data available

## Section 6: Accidental Release Measures

<b>Personal Precautions:</b>	Wear suitable protective equipment (see SECTION 8) e.g., safety gloves, protective mask and/or protective glasses to prevent exposure.
<b>Environmental Precautions:</b>	Be careful not to get large amounts of this product scattered or release into the environment. Take care not to release large amounts of spilled material into the environment avoiding causing local effects.
<b>Methods for Clean-up:</b>	In case of a large amount, sweep up scattered materials or vacuum them using a vacuum cleaner then collect them into an empty container. In case of a small amount, wash out with a plenty of water.

## SECTION 7: Handling & Storage

<b>Storage:</b>	Avoid sunlight. Store in a cool, dry and dark place ( - 20 to - 80 °C) with desiccants.
<b>Handling:</b>	After taking out from cool and dark place ( -20 to -80 °C), ensure that the product in the container become room temperature before opening it to prevent moisture absorption. Install appropriate equipment and wear suitable protective apparatus to prevent inhaling or contact with eyes, skin, or clothes. Install eye washer and hand washer around the handling area. Use only at well-ventilated area without moisture. Avoid making impacts on container or handling violently. Wash hands thoroughly after handling. Do not eat, drink, or smoke when using this product. Wash contaminated clothing before reuse.

## SECTION 8: Exposure controls / Personal Protection

<b>Respiratory Protection:</b>	 <p>Wear dust mask as necessary.</p>
<b>Skin and Body:</b>	  <p>Wear protective gloves as necessary. Wear protective clothing and boots as necessary.</p>

<b>Eyes:</b>	 <p>Wear safety glasses or goggles as necessary.</p>
<b>Ventilation/Engineering Measures:</b>	Because the powder is light and easy to scatter, handle only in a calm place. Use sealed instrument or local ventilation as necessary.
<b>Hygiene:</b>	Handle in accordance with good industrial hygiene and safety practice.
<b>Other:</b>	Acceptable concentration (exposure limit, biological exposure index) ACGIH TLV-TWA (2016): 3 mg/m <sup>3</sup> (Respirable particles) 10 mg/m <sup>3</sup> (Inhalable particles)
